

## ALI200-BOX Power Adapter

### Features

- Waterproof power adapter, for both outdoor and indoor use
- Wall mount, easy installation.
- Unique design, can built-in BNC connector, Network connector
- With work indicator light
- With over-current protection, over-voltage protection

### Parameters

- Input Voltage: 180~260V
- Output Voltage: 12VDC( +7% -3%)
- No-load power consumption: 0.3W
- Signal output ripple: 120mV MAX
- Output Current: 2A MAX
- Power conversion efficiency: 85%

### Working Environments

Operating temperature: -30 ~ +70℃    Operating humidity: 5% ~ 95%RH, non-condensing

### Appearance

Size: 140\*90\*33mm

DC plug:  $\phi 5.5 \times \phi 2.1$

## Notice

1. The AC input is strong current, to avoid electric shock, please installed by professionals prior to power connection.
2. If the power indicator doesn't light after power on, please check if the wiring is connected correct.
3. Pls keep out of reach of children, please install in a well-ventilated dry environment
